

International Symposium on Trauma Informed Schools and Safe Learning Ecosystems (TIS-Frontiers)

Symposium Overview

The TIS-Frontiers Symposium highlights the growing global emphasis on trauma-informed education, safe school environments, and holistic wellbeing systems. This symposium brings together educators, psychologists, sociologists, policy makers, and interdisciplinary researchers to explore the foundations, practices, and innovations that support safe, inclusive, and emotionally responsive learning ecosystems.

Symposium Tracks

Track 1 – Trauma-Informed Pedagogy

- Principles of trauma-informed teaching
- Emotional regulation and learner support systems
- Classroom practices for psychological safety

Track 2 – School Safety and Institutional Wellbeing

- Safe school frameworks and policy development
- Crisis prevention, response, and recovery models
- Institutional resilience and wellbeing strategies

Track 3 – Psychology, Mental Health, and Support Services

- Early identification of trauma indicators
- School counseling and therapeutic approaches
- Community-based mental health support

Track 4 – Sociology of Education and Inclusion

- Social dynamics shaping safe learning environments
- Vulnerable learners and equity-oriented support
- Family and community engagement

Track 5 – Digital Wellbeing, Online Safety, and Emerging Risks

- Risks in digital learning environments
- Bullying, cyberbullying, and online harassment prevention
- AI-based monitoring and early intervention tools

Additional Information

This symposium encourages collaboration across disciplines to improve learning ecosystems and strengthen trauma-informed approaches at institutional, regional, and national levels. Participants are welcome to propose sub-symposia, roundtable dialogues, or cross-disciplinary research workshops aimed at supporting trauma-informed policy development and safe school ecosystem design. Optional collaboration agreements (Mol) may be signed during the congress.
